

Year 5

In Music, we have been learning about beat and rhythm. We composed our own songs based on either COVID-19 or moving into Year 6.

We composed our songs in the beautiful sunshine...

The whole class worked really well, but special mentions to Able and Zac, for trying really hard during the composing lesson.

In Maths, we have started looking at angles and degrees. We took our lesson outside and practised turning.

Can you see how what way we are making our turns?
