

Nur**s**er**y**

In Nursery we have been learning about **Alam WoodseyThomas**. She was an African American artist best known for her colorful, abstract compositions. Alma was the first African American woman to have a solo exhibition at New York's Whitney Museum of American Art, and she exhibited her paintings at the White House three times. Do you like our reproduction of Alam's art work?

This week in Maths we have been learning the names and properties of 2D shapes. We have been on a shape hunt around the classroom and identified lots of 2D shapes in the environment. We have been using 2D shapes to create pictures.
