

Year 6

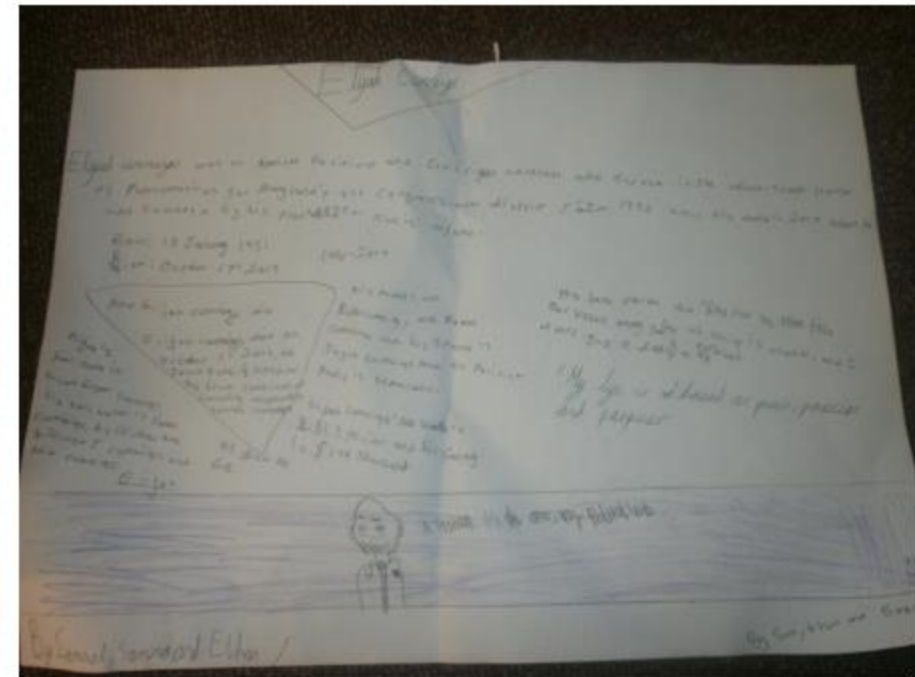

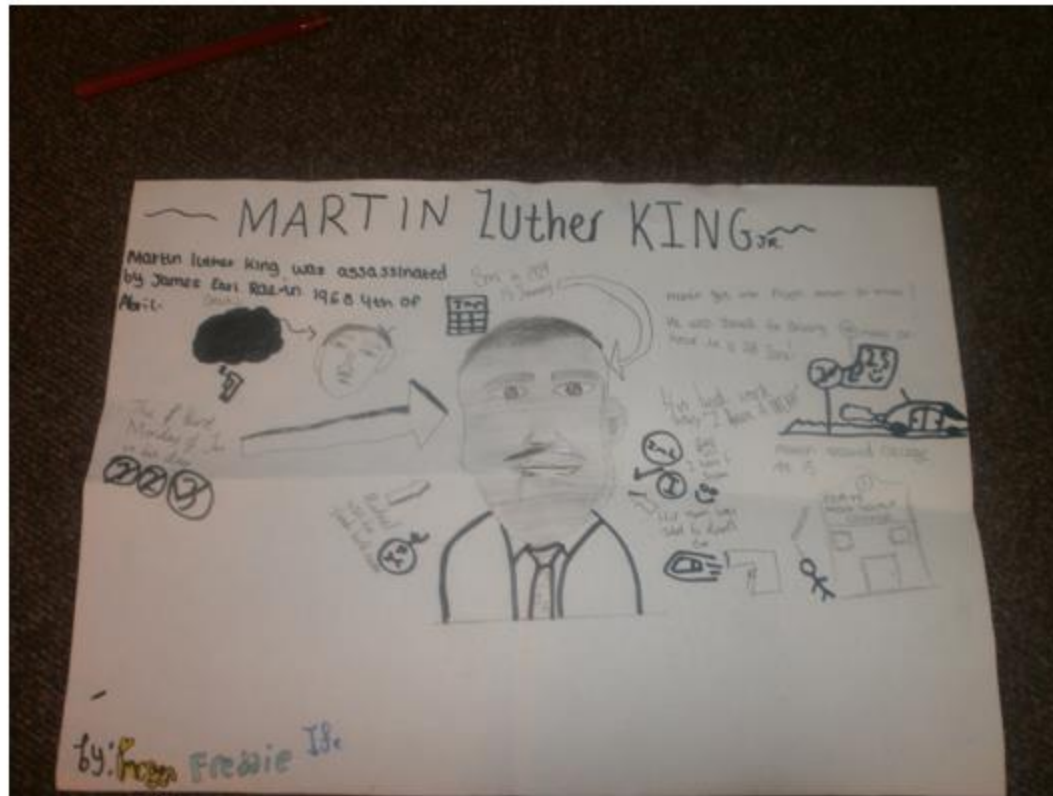

We evaluated our labyrinths during our DT lesson.

We sketched Robert B Elliot.

We made posters ...

We wrote our own arguments ...

I am writing to inform you that I strongly believe racism and discrimination is wrong. By the end of this letter you must believe so.

Let's start with why racism is bad. Black people are not strangers who are ready to murder. They have the same hopes and dreams like white people. They will be serious about education like white people. They have dreams about good jobs like white people. But white people just want to shoot them down. Do you think that's right? We have to be nice to black people if we want to achieve peace. We can't let them go.

Next let's talk about equality. Equality is often to achieve peace. Have you ever heard on the news how black people have been treated? Have you ever had sympathy for them? I think that equality is the only way to stop black people from being discriminated. Due to the fact that black people will not stop reacting until their reacting behaviour has ceased. Just think about it. You know I am right!

Finally, and most importantly there are black people waiting to be known for their outstanding work. The Prime Minister has Marcus Rashford. He is a hero. He is trying to ease poverty everywhere. Like in the

The Racism is wrong however we can still get rich with. Equality is key to world peace. Martin Luther King himself once said 'I have a dream'. True, don't you think?

Slavery

Slavery practically gave birth to racism. Black people were sold to the Americas by unscrupulous sailors to give up their children. And these unscrupulous sailors used their law against them and education. Just think about it!

Slavery Day

The George Floyd incident shows just how corrupt the police has become. He was killed over a few minutes. Thousands of discriminated black people are killed every year. Football, a sport loved by (over) half of the world is being corrupted. This is race when the black players of England are not a priority. You know I'm right!
