

Nur**s**er**y**

In nursery we have been learning how to take care of our environment. We looked at the crystal-clear water perfect for sea creatures and talked about how important it is not to drop litter on beaches and to take rubbish home and put it in the correct bins. We removed the rubbish from the water and put them into the bin.

After listening to the story 'Whatever Next' the children used their imaginations and draw what they would pack for a trip to the moon.

In nursery we attended the grand opening celebration of Forest School.
