

# Year 5

Celebrating our learning and hard work !

Science- Earth and Space-We enjoyed learning about our solar system and how the planets orbited around the sun. Well done Elvis and Luciana for creating your own planet poster. We also did a collaborative piece of writing on our planets and had to share one piece of information that we had learnt about. Well done Jason and Wiktoria!

Geography-Another interesting lesson, learning all about 4 point and 8 point compass. We also learnt the lines of Longitude and Latitude. Well done Stella, Max and Jason.

Angles  
 Longitude and latitude are angles measured with the centre of the earth as an origin. Longitude is an angle.

The Northern is about the equator and the south is below the equator.

**Stella**

Lines of Latitude and Longitude

- Draw a red line to show the equator
- Draw a blue line to show the Tropic of Cancer
- Draw a green line to show the Tropic of Capricorn
- Draw a yellow line to show the Prime Meridian

Prime Meridian - line that goes through North and South poles

We have used google earth to see where in Egypt on a map and school. We put in our post codes by Egypt and United Kingdom in the northern or southern hemisphere?

4 Point Compass Direction

North  
 South  
 East  
 West

8 point Compass

Latitude - are angles measured up/down  
 Longitude - are angles measured left/right

Longitude is the Northern... per of the Equator, it is really very small, or the area.

**Jason**

Lines of Latitude and Longitude

- Draw a red line to show the equator
- Draw a blue line to show the Tropic of Cancer
- Draw a green line to show the Tropic of Capricorn
- Draw a yellow line to show the Prime Meridian

Prime Meridian - line that goes through North and South poles

While using google Earth, we discovered and spotted different countries like Egypt, Cairo and United Kingdom. We also used it to find Tillyung Town to check our school out on a map.

① ② Maps - Grid

Literacy – Summarising a text. Massive effort and improvement from Ephiram and Muiyiwa. Well done boys, your writing had all the key events and omitted out any un-necessary information. Keep up the hard work!

Wednesday 9th March 2022

1. Glinted - To shine with small flashes of light.
2. Nudged - To poke someone gently with your shoulder.
3. Abruptly - Sudden and unexpected.
4. Spiky - Feeling on edge.
5. Rattled - To push one thing hard against another.
6. Snooty - etc. something very unpleasant.
7. Pinacore - An elegant school dress.

It is a young lady (about 12-13 years old) who was brought in a middle-class, comfortable house hold. And her parent's work extremely hard to afford requirements for her. (E.g. though they don't earn enough money to support each other). In chapter 3, "Lid was young through a newspaper and found out there there was human foot found in the Bloomsbury house and wouldn't let go until she investigated the story behind the missing girl.

One gloomy day, Lid found a parcel lying still on her grandfather's doorstep sent by his friend, Professor Selim Horowitz who had unfortunately passed away. She opened the package to find a beautiful vase with decorations like the Splice.
